

All the music you want. All over your house.

## Sonos ZonePlayer 120

# ZP120

### Wirelessly stream and amplify all your favourite music all over your house.

The Sonos® ZonePlayer™ 120 is amplified, wireless, compact, and convenient. With a state-of-the-art digital amplifier, the ZP120 works anywhere you've ever dreamed of having music — the bedroom, the bathroom or even the back garden. You can fill your house with ZP120s or mix and match with the non-amplified ZP90 for the ultimate in multi-room music.

Just plug the ZP120 in, connect your choice of speakers and you've got a room filled with music. And with the ZP120's expansive wireless range, you can play all your favourite songs and stations, all over the house. The design of the ZP120 is both compact and cool so you can hide it away or leave it out for all to see.

#### Key Features

- Superior sound with a powerful digital amplifier
- Best-in-class wireless technology for multi-room music
- Instant access to endless music
- Simple setup
- New features and music services with automatic updates

# Sonos ZonePlayer 120

## Superior sound with a powerful digital amplifier

The ZP120's state-of-the-art digital amplifier delivers audiophile-quality sound to any room. The energy-efficient Class D amplifier provides 55W per channel of power with a THD+N <.02% for excellent audio quality playback. And because the amplifier is built in, you won't need to connect to a stereo to play your music.

## Best-in-class wireless technology for multi-room music

SonosNet™ 2.0, our latest wireless mesh network technology, provides double the wireless range\* for whole-house coverage, ensures synchronous music playback, and avoids sources of wireless interference. All without a massive wiring project.

## Instant access to endless music

Wherever there's a ZP120 (or any other ZonePlayer), you can listen to your personal library of music stored on your computer, plus thousands of free Internet radio stations. And Sonos works seamlessly with the most popular music services so you can stream millions of songs and stations from the Internet to the rooms of your choice. You can even connect the ZP120 to your favourite audio source such as an iPod or CD player and listen on all the ZonePlayers throughout your house.

## Simple setup

No technical or wiring expertise required. No need to break through walls or re-wire the house. A high-speed Internet connection and router are all you need. One ZonePlayer or ZoneBridge™ must be connected to the router and all the rest work wirelessly. Then add more ZonePlayers in more rooms without adding wires.

## New features and music services with automatic updates

With free automatic software updates, you'll always have the newest features and music services to enjoy. Which means your system will keep getting better even after you buy.

\*Based on a comparison between a site using only SonosNet 1.0 products versus a site using only SonosNet 2.0 products. Actual range will vary with site conditions.

## TECHNICAL SPECIFICATIONS

### Amplifier

Class-D

### Rated output\*\*

110W RMS (2 x 55W RMS continuous average power into 8 ohms, THD+N<0.02%)
